

REYMEL MISLANG

Junior Web Developer | Front-End Developer | IT Support

Naujan, Oriental Mindoro | 09761025310 | reymelrey.mislang@gmail.com

PROFESSIONAL SUMMARY

Entry-level IT graduate and web developer experienced in building web systems, dashboards, chatbots, and database-backed applications. Skilled in JavaScript, React/Next.js, Vue.js, Firebase, MySQL, Git, basic networking, and social media research. Completed internship at Armful Media as a Social Media Researcher and Web Development Intern, contributing to influencer sourcing, data organization, UI consistency, live database integration, API debugging, and production-style Git workflow.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, JavaScript, responsive UI
Backend & Database:	Node.js, Express/EJS, Firebase, MySQL, Prisma ORM, SQL, REST APIs
Tools:	Git, GitHub, VS Code, WAMP Server, smtp4dev, WakaTime, debugging, branch workflow
Languages:	English, Tagalog

RELEVANT EXPERIENCE

Social Media Researcher / Web Development Intern Armful Media	Feb 2026 - Apr 2026
• Researched and sourced influencers for brand campaigns by checking social media profiles, niches, locations, engagement signals, and contact information. • Organized influencer data for campaign tracking and supported team workflows using spreadsheets, CRM fields, and consistent status updates. • Worked on Instroom.io, an internal influencer CRM for influencer sourcing, pipeline tracking, post tracking, analytics, and brand partner management. • Improved UI consistency across Manage Influencers, Pipeline, Post Tracker, Inbox, Analytics, and Brand Partners through reusable toolbar, filter, sidebar, and empty-state patterns. • Integrated live Prisma/MySQL data into Next.js pages and API routes; replaced static JSON flows with database-backed fetching and updates. • Resolved full-stack issues involving API routes, client/server component conflicts, hydration warnings, Prisma field mismatches, imports, and database connection limits. • Followed Git branch workflow from staging with daily sync/merge practices and focused commits for team collaboration.	

PROJECT EXPERIENCE

Instroom.io - Influencer CRM Platform Next.js, React, Prisma, MySQL	2026
• Built and refined CRM modules for influencer management, Kanban/list pipeline views, post tracking, profile sidebars, brand partners, and analytics. • Added search, filters, sort controls, board/list toggles, detail drawers, and status-based workflow mapping for campaign operations.	
Hareneth - Civil Registration and Analytics System Capstone	2025 - 2026
• Designed a civil registration support system for birth, marriage, and death records with appointment scheduling, document verification, chatbot assistance, and analytics support.	
Barangay Information System Vue.js, Firebase, Cohere	2025
• Created a digital barangay service system with role-based dashboards, request management, records handling, and chatbot-assisted support.	
SafePath - Bullying Complaint System JavaScript, Chatbot, Sentiment Analysis	2024
• Built an anonymous bullying complaint platform with chatbot support and severity classification for mild, severe, and neutral reports.	
Trabahanap - Python Job Portal Python	2024
• Developed a job-matching platform with authentication, profile creation, and employer-side applicant tracking workflows.	

EDUCATION

Bachelor of Science in Information Technology Mindoro State University - Calapan Campus	2021 - 2026
