EDUCATION

Bachelor of Science in Information Technology

Mindoro State University - Calapan Campus
Graduated: 2026

CAREER OBJECTIVE

To secure an entry-level role where I can apply my skills in frontend development, UI/UX design, web application development, and database integration while contributing to efficient, accessible, and user-focused digital solutions.

INTERNSHIP EXPERIENCE

Frontend Developer Intern | Armful Media

February 2026 - April 2026

- Developed and improved web system features using React.js and Next.js.
- Worked on UI/UX improvements for influencer management pages.
- Fixed frontend issues, improved layouts, and connected frontend components to backend data.
- Used GitHub for version control and collaborated with the development team.
- Gained experience in debugging, task management, and building systems from scratch.

PROJECTS

Hareneth: A Mobile-App Based System for Civil Registration and Analytics | Capstone Project

- Designed to modernize civil registration services for birth, marriage, and death records.
- Includes appointment scheduling, document verification, analytics, and chatbot support.
- Focused on improving efficiency, accuracy, and user experience for clients and registry staff.

SafePath - Campus Safety Website | Application Development Project

- Developed for MINSU Calapan Campus.
- Includes chatbot support that provides comfort or motivational responses based on user concerns.
- Guides users toward incident reporting through a Google Form.

Instroom.io | OJT / Internship Project

- Worked on an influencer management platform used for influencer campaigns and internal marketing operations.
- Contributed to UI improvements, influencer table features, pipeline updates, post tracker, brand partners section, and sidebar components.
- Used Next.js, React.js, Tailwind CSS, Prisma, MySQL, and GitHub.
